

I- Personal Information:

Full Name (English)	Abdulaziz Ahmed Hadi Asiri
Academic Degree	PhD student
Email	447801453@kku.edu.sa
Address	- Physics department, Faculty of science, King Khalid University, AlQura' a, Abha P.O. Box 906, Saudi Arabia; - Mob. Tel: +966-550828286, - E-mail: 447801453@kku.edu.sa Abdulaziz213a@gmail.com

II- Research Interests:

Discipline:	Physics
Subdiscipline:	Scientific Instrumentation, Optical systems, and Terahertz Spectroscopy
Research Interests	Terahertz Time-Domain Spectroscopy (THz-TDS), photoconductive antennas, femtosecond laser systems, optical alignment, and the spectroscopy-based evaluation of functional materials

Research Projects (Completed)

- **THz Spectrometer Development and Materials Characterization:** Built and validated a new THz spectrometer using a photoconductive antenna scheme for generation and detection.
- **Collaborative Applied Research Project:** Member of a research group at the Central Laboratories Center contributing to the project "Strategies Application of Light Phosphors Source Use in Plant Growth.

III- Published papers:

Abdulaziz. A. Asiri*, Alshehri, A. M., & Ibrahim, A. (2025). Terahertz optical and dielectric properties of BK7 silicate glass: Characterization of the complex refractive index and dielectric response in the terahertz frequency region. *Science of Alloys and Glasses*, 1(4), 207-214. <https://doi.org/10.69626/sag.2025.0207>
