

I- Personal Information:

Full Name (English)	Alaa Dahshan
Academic Degree	Professor
Email	adahshan@kku.edu.sa
Address	Department of Physics, Faculty of Science, King Khalid University; P.O. Box 9004, Abha, Saudi Arabia. Mobile: +966 59 501 9799 E-mail: adahshan@kku.edu.sa E-mail: adahshan73@gmail.com alaadahshan@yahoo.com

II- Research Interests:

Discipline:	Physics and Materials Science
Subdiscipline:	Amorphous semiconductors, chalcogenide glasses and thin films; optical, electronic, photoelectrical and thermal characterization.
Research Interests	✚ Synthesis and characterization of bulk amorphous semiconductors. ✚ Fabrication and characterization of amorphous semiconductor thin films. ✚ Optical characterization of amorphous thin films, including the determination of their optical constants. ✚ Electronic and photoelectrical properties of amorphous semiconductor thin films. ✚ Composition dependence of the complex refractive index in amorphous semiconductors. ✚ Thermal stability and crystallization kinetics of amorphous semiconductors via differential scanning calorimetry (DSC).

Selected Research Projects

1. King Khalid University Project No. (G.R.P.2-92-45) -Metal Chalcogenide Thin Films as Solar Cell Absorption Layer.
2. King Khalid University Project No. (G.R.P.2-158-44) - Thermoelectric and photovoltaic properties of chalcogenes as renewable energy sources.

3. King Khalid University Project No. (G.R.P.2-141-43) - Study of the structural, electronic and optical properties of advanced materials for hydrogen production using water splitting.
4. King Khalid University Research Group (R.G.P.2/113/41) - Progressive chalcogenide compounds for thermoelectric and photovoltaic devices.
5. King Khalid University Research Group (R.G.P.2/34/40) - Synthesis and characterization of chalcogen-based thermophotovoltaic thin films.

III- Publications (over 300 Papers in ISI Journals):
